G HARINI

Andhra Pradesh, India | harinig3116@gmail.com | +91-8106751145
Git Hub: https://github.com/Harini-3116| Leet Code: https://leetcode.com/u/_Harini31/

EDUCATION

Mohan Babu University – B. Tech in Computer Science and Engineering
2024 – 2028
CGPA: 9.74 / 10
Intermediate (Class XII) – 987 / 1000
Secondary School (Class X) – 576 / 600

TECHNICAL SKILLS

Languages: Java, Python, C++
Concepts: Data Structures, Algorithms, Object-Oriented Programming, Recursion
Tools: Git Hub, VS Code

PROJECTS

N-Queens Solver | Java
Git Hub: https://github.com/Harini-3116/n-queens-visualizer
• Implemented the classical N-Queens problem using the Backtracking algorithm.
• Used recursion and constraint checking to ensure queens do not attack each other.
• Improved understanding of algorithm design and recursive problem solving.

Student Management System | Java
Git Hub: https://github.com/Harini-3116/student-management-system
• Built a console-based application to manage student records.
• Implemented features such as add, display, and delete student data.
• Applied object-oriented programming concepts including classes and methods.

PROBLEM SOLVING

• Practicing Data Structures and Algorithms using Java and Python.
• Solving problems related to arrays, recursion, searching algorithms, and bit manipulation on Leet Code.
